

VARSHA KURANDAWAD

AI & Machine Learning Undergraduate | Python | Data Science | Model Deployment

varshakurandawad@gmail.com | +91-7483733653 | Bengaluru, Karnataka | [linkedin.com/in/varsha-kurandawad-443a79313](https://www.linkedin.com/in/varsha-kurandawad-443a79313) | github.com/varsha2117

PROFESSIONAL SUMMARY

Artificial Intelligence and Machine Learning undergraduate with a strong academic record (CGPA 9.0/10) and hands-on experience in machine learning, data preprocessing, predictive modeling, and model deployment. Proficient in Python, C, C++, Pandas, NumPy, Scikit-learn, FastAPI, Git, and GitHub, with exposure to Generative AI, neural networks, and REST APIs. Built academic, personal, and internship projects across healthcare, finance, agriculture, and predictive analytics. Seeking entry-level opportunities in software engineering or AI/ML.

EDUCATION

Bachelor of Engineering (B.E.) — Artificial Intelligence and Machine Learning 2023 – 2027 (Pursuing)
MVJ College of Engineering, Bengaluru | Visvesvaraya Technological University (VTU) | CGPA: 9.0/10

Pre-University (Class XI – XII) 2020 – 2022
Banajawad Residential Pre-University College, Athani | Score: 88%

School (Class I – X) 2010 – 2020
Athani Vidyavardhak English Medium High School | Score: 94.72%

TECHNICAL SKILLS

Programming: Python, C, C++

Machine Learning: Linear Regression, Logistic Regression, KNN, Decision Trees, Random Forest, Feature Engineering, Model Evaluation

Data & Tools: Pandas, NumPy, Scikit-learn, Jupyter, Git, GitHub, Google Colab, VS Code

Backend & Deployment: FastAPI, Flask, REST APIs, Streamlit

AI Concepts: Generative AI, Prompt Engineering, Neural Networks, CNN Fundamentals

Data/Streaming: Apache Kafka, SQLite

INTERNSHIP EXPERIENCE

InternPe — AI/ML Intern Sep 2025 – Oct 2025

- Worked on AI/ML projects covering Data Science and Data Analytics workflows, including preprocessing, feature engineering, model training, evaluation, and prediction.
- Applied Python, Pandas, NumPy, and Scikit-learn to practical datasets and built predictive models for healthcare, automotive, sports analytics, and movie-rating problems.
- Developed and evaluated classification and regression solutions using Logistic Regression, Linear Regression, and Random Forest.

PROJECTS

Financial Crime & Compliance Management System (FCCM) — Phase 2

Python, Flask, Scikit-learn, Apache Kafka, SHAP, Streamlit, SQLite

- Built a real-time transaction monitoring system combining ML-based fraud detection with Kafka streaming and automated risk alerts.
- Implemented cross-account analysis, entity-resolution workflows, SHAP-based explainability, and dashboard-oriented monitoring.

Lung Cancer Detection using CNN

Python, PyTorch, CNN, Streamlit

- Developed a CT/DICOM image-based application to predict lung cancer probability using a convolutional neural network.
- Preprocessed medical images and integrated the trained model into a Streamlit application for prediction.

Farmer App — AI-Powered Scheme Recommendation System

Python, FastAPI, AI/ML

- Developed an application to recommend relevant government schemes to farmers, with Kannada-language scheme content.
- Implemented a FastAPI backend and structured scheme data for recommendation-oriented responses.

scikit-learn Open-Source Development

Python, Scikit-learn, Git

- Forked the scikit-learn open-source repository and worked with a large-scale machine-learning codebase and development workflow.

Movie Rating Prediction

Python, Pandas, Scikit-learn

- Built prediction models using movie attributes such as genre, director, cast, budget, and runtime.
- Applied preprocessing, feature engineering, Linear Regression, and Random Forest.

IPL Match Winning Prediction

Python, Pandas, NumPy, Scikit-learn

- Engineered match features including runs, wickets, overs, and recent-over momentum.
- Developed a Logistic Regression prediction pipeline from preprocessing through deployment-ready output.

CERTIFICATIONS

- Introduction to Generative AI Studio — Google Cloud Skills Boost | Jan 2026
- Introduction to Prompt Engineering with GitHub Copilot — Microsoft | Jan 2026
- Data Analyst — Deloitte | Jan 2026
- Generative AI and ChatGPT Certification — GeeksforGeeks

ADDITIONAL STRENGTHS

Problem Solving | Teamwork | Communication | Time Management | Adaptability | Ownership of Commitments
